

CONNECTION DA1 bit

Software update DA1_01.05.06 release notes.

Updates:

- DSP buffering section changed for better processor performance and throughput;
- Reverse Park Beeps and chimes flipped to the front channels to avoid confusing with fade/balance channels;
- AUDI MMI 3G (not 3G +) compatibility is now more stable along different versions;
- BMW chimes and PDC reduced in level for acceptable sound level.

Bug fix for known issues

- Fixed Audi MMI 3G stop/start technology amp turn off;
- Fixed Audi multichannel MMI3G mode.
